

Nomad 28 Plus

A 28-Watt panel re-engineered to be lighter and smarter, the Nomad 28 Plus Solar Panel has the innovative technology to charge USB devices directly from the sun. Detachable kickstand for modularity and power-flow indicator ensure the best solar charging experience. Larger footprint allows for quicker charging for the Yeti and Sherpa power packs.

WHAT CAN THE NOMAD 28 PLUS CHARGE?

The solar panel does not hold a charge it produces power when it is exposed to sunlight. You can plug your phone directly into the panel or use it to recharge a portable recharger for later use. The Nomad 28 Plus is great for recharging things like:

- Phones
- Tablets
- Other similar USB devices
- Goal Zero Power Packs
