The new MeacoDry 'ABC' range offers the multi-award winning Meaco brand of dehumidifiers at an unbeatable entry level price. Featuring the latest low-noise and energy saving technology the 10 litre MeacoDry 'ABC' is the quietest compressor dehumidifier from Meaco, making it the most effective and practical dehumidifying solution for the home.

This compressor dehumidifier has low running costs, and when you see how quiet these dehumidifiers are you have a near perfect solution for dehumidifying in the home.

Ultra-quiet dehumidifier technology

At just 35dB when in low fan speed and 40db at high fan speed, the MeacoDry 'ABC' beats desiccant dehumidifiers on sound levels. With less obtrusive background noise the MeacoDry 'ABC' is more suitable for use in smaller properties than other compressor dehumidifiers.

Energy efficient dehumidifier

Featuring low energy consumption with running costs of just 26 cents per hour based on R1.46/kWh. The MeacoDry 'ABC' is a cost-effective and practical solution to help remedy ongoing moisture issues within the home such as damp, condensation, and drying laundry.

Practical functionality

Meaco has used its decades of experience to develop time and energy saving functionality into the MeacoDry 'ABC' such as:

Laundry mode – makes the machine run at full speed for 6 hours to help dry your clothes and then switch off to save energy

Automatic defrost - increases water extraction whilst saving energy when used in lower temperatures

Automatic turn off – prevents spillage when water tank is full

Auto-off timer – schedule when the appliance turns off

Child lock - to prevent hands small and large from changing your settings

Simple Controls

The MeacoDry 'ABC' features easy to use controls with a display showing the current room relative humidity and the ability to set your target relative humidity in steps of 5%.

A perfect solution?

Combining low running costs with the very low noise levels provides many users in flats or smaller homes with a near perfect dehumidifier solution. It comes with a two year parts and labour warranty, and an option of extending warranty to five years.
